THE MINERALS SPEAK

We are like solidified colorful tones, we are a different manifestation of blossoms, we are the same spirit as the tones and blossoms, but in a different form.

You only encounter our solid shape. You have known us for a long time.

We are mirrored in you. Together with you, we are like music.

We are the music of the Earth in a solid form – and the music of all forms everywhere.

We share the same home.

Everything that you deem too simple is like a deep, dark tone.

It vibrates in all tones, just as everything vibrates in everything.
